To: All Interested in Purchasing a Great Pyrenees Puppy

I have been fortunate enough to be the owner of two great pyrenees dogs. My latest was purchased from Seeking Shalom Acres in southwestern Virginia. Having trolled the internet to find a possible breeder, and after speaking to numerous individuals, I stumbled upon Seeking Shalom Acres, located all the way at the other end of the state!

Believe me, there was no one who put me more at ease when speaking about the possible purchase of a puppy. Melody Windsor was a dream! Once I committed, her communication was constant. I was the eighth person on her list, and the puppies had not yet been born, so there was a great deal of prayer from both of us that this litter would have at least eight puppies and four needed to be female. Our hopes were granted...the litter of eleven arrived, and after eight long weeks, I met my new puppy.

During the eight week period with the family at Seeking Shalom Acres, the puppies were well-cared for and weekly pictures were provided. Regular updates on their health, eating habits, and veterinary visits kept me aware of their exploits as they were growing into mature eight week olds with individual personalities.

Melody and her family are loving and caring. They treat each puppy, caressing and lavishing personal attention from day one. They also provide information on the meals given and a vet record for you to take to your veterinarian.

I was overwhelmed with the kindness provided by the Windsor family. I consider them to be friends and know that I will return to them for any future purchases. Oh, and by the way, one cannot find a better price anywhere.
